- 'Slam lock' optional

SWING GATES - PROTECTION

Star key hook lock

20mm X 20mm
UPRIGHTS

Double hinged

'Effective way to keep unwanted guests out!'

4 MONKEY PROOF GATES

This product is specially designed for the monkey infested areas. We have added additional uprights to the gate to narrow the openings. This does not effect the stacking width of the gate. The design is the same as our SU20 product with added features.

FEATURES

- Hardened 20mm x 20mm *Aluminium uprights.*
- Hardened 12mm x 12mm *Additional Aluminium uprights*
- To narrow the spacing between uprights.
- Slam lock as a standard feature.
- Optional extra: Deadlock on second lock.
- 3.5 mm thick "x" braces
- Nylon top and bottom rollers for smooth operation.
- Product epoxy coated for a durable finish.

GUIDES & TRACKS

The gate uses the same guides and tracks as the SU20 security gates.

*SINGLE 'X' PATTERN | *TRIP FREE TRACK

5 ROLLER SHUTTERS

These doors are very high impact resistant, manual and automatic door options available with different styles of slats.

SOLID SLATS

PERFORATED SLATS

WINDOW SLATS

CRIME STOPPER™
SLIDES SMOOTHER /// LOCKS FASTER
SECURITY BARRIERS

FEATURES

- Shutter doors consist of 1mm thick slats
- Shutter doors can be fitted to any size openings
- Slats roll down to lie on each other
- A 280mm wide 350/400mm high cover box is installed above the shutter door (where door rolls into)
- Galvanized or powder coated
- Every shutter is individually made to specifications

OPERATION METHODS

Motorised doors or chain operated doors are normally used in factories where the doors would be heavy and for industrial sized doors.

*** POWER BACKUPS CAN BE SUPPLIED ON REQUEST.**

6 BURGLAR GUARDS

BURGLAR X

THE MORE AFFORDABLE OPTION TO SECURE THE HOME!

The BURGLAR BAR X is designed to provide you with the best and strongest possible protection. The BURGLAR BAR X gives you this elegant look from the inside and outside of your home. It is designed to fit inside the reveal of the window, giving you maximum security! The BURGLAR BAR X is not mounted to the window frames.

**Retractable option is also available where cleaning of windows may be your concern. These are also powder coated to a very durable finish*

**Available in standard colors.*

HORIZONTAL BARS

VERY STRONG & DURABLE

We offer a unique custom-made reveal fix Steel burglar proofing option which suits all window types. HORIZONTAL BARS are mounted onto the reveal of the window (into the wall, not the window frame)

**Option to secure the entire window or only the opening sections. Bars are aluminium and Epoxy coated*

COTTAGE PANE

This system is comprised of installing vertical and horizontal bars to create a 'Grid-like' pattern, where the optimum spacing between the bars are not more than 200mm.

**No access points.*

Bars are aluminium and Epoxy coated.

CREAM

ALUMINIUM AND CHROMADEK FLUTED SECTIONAL GARAGE DOORS

Garage doors represent a major proportion of the **AESTHETIC APPEAL** and **ARCHITECTURAL** design of a home. In fact, the choice you make can play a considerable role in the resale value of your property. Our range of **ALUMINIUM** and **CHROMADEK SECTIONAL** garage doors are not only **AESTHETICALLY APPEALING**, but also low maintenance. They can be custom made and painted to any shade to suit the style and design of your home.

ALUMINIUM SECTIONAL GARAGE DOORS

ALUMINIUM SECTIONAL garage doors are an innovative design, which has proven it self worldwide as a superior garage door option. The garage doors are made up of sectional panels, which facilitate easy operation. The steel construction also proves as a strong durable door which will not chip or crack. Our standard garage doors are painted white. You may consider customising your home by adding colour to your garage doors.
